

## ACT OF CONTRITION ANIMATION

We help kids understand confession, a contrite heart, forgiveness, and humility through this animation.

### WHY ANIMATION?

Children are spending six or more hours per day on screens according to the CDC. How much Catholic content is on the other side of that screen? Not much. Social media and streaming services have become their primary educators. Kids are growing up without much of an understanding of the Catholic faith and without knowing how to grow in virtue. Things like the Act of Contrition or going to confession are the last things on their mind. It's time to make a change.

We want to meet kids where they are at. That is why we are producing songs and animations, not traditional lessons or lectures.
